INDEPENDENT AUDITORS' REPORT

To the Members

Arclight Securities, LLC

440 S. LaSalle, #1821

Chicago, IL 60605

We have audited the accompanying statement of financial condition of Arclight Securities, LLC (an Illinois limited liability company) as of December 31, 2007 and the related statements of income, changes in ownership equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U. S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance that the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of Arclight Securities, LLC as of December 31, 2007, and the results of its operations and its cash flows for the year ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on pages 13 through 17 is presented for the purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ARCLIGHT SECURITIES, LLC
(an Illinois limited liability company)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2007

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

Arclight Securities, LLC ("the Company") was formed in the state of Illinois on May 25, 2004 and commenced activities on July 1, 2004. The Company is a broker/dealer registered with the Securities and Exchange Commission and is a member of the Chicago Board Options Exchange. The Company primarily engages in the proprietary trading of exchange-traded equity securities, equity and index options, and futures contracts.

As a limited liability company, the Company has a finite life and will cease to exist on January 1, 2015, unless the term is extended by amendment to the Operating Agreement, or unless the Company is sooner dissolved, and its affairs wound up in accordance with the Illinois Limited Liability Act. For additional information regarding the Company, please refer to the Operating Agreement.

Basis of Accounting

The Company's financial statements are prepared on the accrual basis of accounting, which conforms to U.S. generally accepted accounting principles. Substantially all of the Company's assets and liabilities are carried at fair market value, with the exception of membership seats as discussed in Note 7.

Cash Equivalents

For the purposes of the statement of cash flows, the Company's policy for defining cash equivalents are certificates of deposits and U.S. government obligations with an original maturity date, when acquired by the Company, of less than 90 days and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and commonly referred to as "money market funds."

Cash Deposits in Excess of Federally Insured Limits

From time to time, the Company may carry cash deposits in excess of federally insured limits. Management does not believe there is any significant risk of loss from cash.

Accounting Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Revenue Recognition

Securities transactions and related commission revenue and expenses are recorded on a settlement date basis. U.S. generally accepted accounting principles normally requires an entity to record securities transactions on a trade date basis, however, a majority of brokers and dealers record most securities transactions on the settlement date rather than on the trade date. The difference between trade date and settlement date accounting is not material to the Company's financial position at December 31, 2007, nor material to the results of its operations for the period then ended.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition.

NOTE 2 – FAIR VALUE OF FINANCIAL INSTRUMENTS

Securities owned, securities sold, not yet purchased, and other financial instruments used for trading purposes are recorded in the statement of financial condition at market value, with the related unrealized profit or loss included in net trading gain in the statement of operations. As the Company operates as a broker/dealer, all financial instruments are stated at quoted market value, which approximates fair value.

NOTE 3 – RECEIVABLE FROM AND PAYABLE TO BROKERS OR DEALERS

Amounts receivable from and payable to brokers and dealers at December 31, 2007 consist of the following:

	<u>Receivable</u>	<u>Payable</u>
Due to/from clearing firm – clearance	\$30,486,656	\$ 0
Due to/from clearing – options	825,155	0
Due to/from clearing – other securities	3,081,829	0
Securities sold not yet purchased	<u>0</u>	<u>33,269,646</u>
Total	<u>\$34,393,640</u>	<u>\$33,269,646</u>

NOTE 4 – FINANCIAL INSTRUMENTS

Derivative financial instruments used for trading purposes, principally exchange-traded options are carried at quoted market value.

Derivatives used for economic hedging purposes include purchased options. Unrealized gains or losses on these derivative contracts are recognized currently in the statement of income as trading revenues. The Company does not apply hedge accounting as defined in FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as all financial instruments are marked to market with changes in fair values reflected in earnings. Therefore, the disclosures required in paragraphs 44 and 45 of the Statement are generally not applicable with respect to these financial instruments.

Fair value of options contracts are recorded in securities owned or securities sold, not yet purchased, as appropriate. Premiums and unrealized gains and losses for written and purchased option contracts are recognized gross in the statement of financial condition. The following table discloses the approximate fair values of derivative financial instruments held for trading as of December 31, 2007, as well as the approximate quarterly average fair values of derivatives held during 2007:

	<u>December 31,</u> <u>2007</u>	<u>Average during</u> <u>2007</u>
Equity and index options assets	\$ 825,155	\$1,406,407
Equity and index options liabilities	7,338,455	3,878,116

NOTE 5 – FINANCIAL INSTRUMENTS WITH OFF BALANCE SHEET RISK

In the normal course of business, the Company engages in trading activities. In connection with these activities, unsettled trades and sales of securities not yet purchased may expose the Company to off-balance sheet credit risk as a result of market fluctuations. The Company enters into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include exchange-traded options, and securities purchased and sold on a when-issued basis (when-issued securities). These derivative financial instruments are used to conduct trading activities, and manage market risks and are, therefore, subject to varying degrees of market and credit risk. Derivative transactions are entered into for trading purposes or to economically hedge other positions or transactions.

When-issued securities provide for the delayed delivery of the underlying instrument. As a writer of options, the Company receives a premium in exchange for giving the counterpart the right to buy or sell the security at a future date at a contracted price. The contractual or notional amounts related to these financial instruments reflect the volume and activity, but do not reflect the amounts at risk. The credit risk for options and when-issued securities is limited to the unrealized market valuation gains recorded in the statement of financial condition. Market risk is substantially dependent upon the value of the underlying financial instruments and is affected by market forces such as volatility and changes in interest and foreign exchange rates.

In addition, the Company has sold securities that it does not currently own and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the financial statements at December 31, 2007, at market values of the related securities and will incur a loss if the market value of the securities increases subsequent to December 31, 2007.

The Company's trading activities are transacted on a cash basis. In connection with these activities, the Company executes transactions involving the sale of securities not yet purchased. Such transactions may expose the Company to significant off-balance-sheet risk in the event capital reserves are not sufficient to fully cover losses that may incur. The Company seeks to control the risks associated with its trading activities by monitoring trading markets daily. In addition, the Company establishes credit limits for such activities and monitors compliance on a daily basis.

Concentrations of Credit Risk

At December 31, 2007, a significant credit concentration existed in the Company's trading accounts carried by its clearing broker. Management does not consider any credit risk associated with this receivable to be significant.

The Company is engaged in various trading and brokerage activities with counter parties, primarily broker/dealers. In the event counter parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counter party or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counter party.

NOTE 6 – NET CAPITAL REQUIREMENTS

At December 31, 2007, the Company's net capital as computed pursuant to the rules of the Chicago Stock Exchange was \$708,872, which was \$608,872 more than the minimum net capital requirement of \$100,000.

NOTE 7 – INVESTMENT IN CLEARING COMPANY

The Company has a Joint Back Office ("JBO") clearing agreement with Goldman Sachs Execution & Clearing, L.P. ("GSEC"). The agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, the Company has invested \$10,000 in the preferred shares of GSEC. The Company's investment in GSEC is reflected as investment in broker/dealer in the statement of financial condition. This investment is carried at cost, and under the agreement, would be returned to the Company in the event the JBO arrangement is terminated, less any accrued costs or expenses. Under the rules of the Chicago Board Options Exchange, the agreement requires that the Company maintain a minimum net liquidating equity of \$1,000,000.00 with GSEC, exclusive of its preferred stock investment.

NOTE 8 – MEMBERSHIP SEATS

The Company owns 4 seats on the Chicago Board Options Exchange ("CBOE"). As required by the rules of the exchange, these seats are carried at historic cost. During the year ended December 31, 2007, the Company received income in the amount \$274,396 for the lease of these seats.

NOTE 9 – INCOME TAXES

No provision or credit has been made for federal income taxes as the Company has elected S-Corporation status for taxation purposes and all federal tax consequences are taxed directly to the individual members.

NOTE 10 – OPERATING LEASES

The Company leases its office on a month-to-month basis. Office lease expense totaled \$39,600 for the year ended December 31, 2007.

NOTE 11 – OTHER REVENUE AND EXPENSES

Other revenue as follows:

Dividends	\$ 1,671
Manufactured Income	321,222
Interest	19,283
S/S rebate	611,895

INDEPENDENT AUDITORS' REPORT ON INTERNAL ACCOUNTING CONTROL REQUIRED BY THE SECURITIES AND EXCHANGE COMMISSION RULE 17a-5

To the Members

Arclight Securities, LLC
440 S. LaSalle, #1821
Chicago, IL 60605

In planning and performing our audit of the financial statements of Arclight Securities, LLC for the year ended December 31, 2007, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

We also made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a) (11) and the procedures for determining compliance with the exemptive provisions of rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer activities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with U.S. generally accepted accounting principles.

Arclight Securities, LLC

Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the Chicago Stock Exchange, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities and Exchange Act of 1934 and should not be used for any other purpose.
